Bureau of Reclamation

[FES 95-2]

Narrows Project, Utah; Availability for Final Environmental Impact Statement

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability for final environmental impact statement for the Narrows Project, Sanpete County, Utah; INT-FEIS-95-2.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, as amended, the Department of the Interior, Bureau of Reclamation (Reclamation), is submitting a final environmental impact statement (FEIS) on the proposed Narrows Project. The FEIS describes and presents the environmental effects of three alternatives, including no action, for a multiple purpose water development project that would provide water for irrigation and municipal use in north Sanpete County, Utah.

ADDRESSES: Single copies of the FEIS may be requested from Reclamation's Upper Colorado Regional Office at the

following address: Regional Director, Bureau of Reclamation, Attention: Lee Swenson, UC-750, 125 South State Street, Room 6107, Salt Lake City, UT 84138-1102; telephone: (801) 524-5580.

Copies of the FEIS are available for inspection at the address above and also at the following locations:

- Office of the Commissioner, Bureau of Reclamation, Environmental and Planning Branch, 18th and C Streets NW., Room 7455, Washington, DC 20240, Telephone: (202) 343-4662
- Reclamation Service Center, Bureau of Reclamation, Library, Room 167, Building 67, Denver Federal Center, Denver, CO 80225, Telephone: (303) 236-6963.

Libraries

Copies will also be available for inspection at libraries in the project vicinity.

FOR FURTHER INFORMATION CONTACT: Lee Swenson (Regional Environmental Officer), Upper Colorado Region, (801) 524-5580.

SUPPLEMENTARY INFORMATION: Sanpete Water Conservancy District is proposing to build a multiple purpose water development project that would provide water for irrigation and municipal use. Water from the project would come from a transmountain diversion from upper Gooseberry Creek and its tributaries which are located in the Prince River drainage. Irrigation water shortages would be reduced from their present level of 30 percent to about 19 percent.

Three alternatives, including No Action, were considered in the draft statement. The two action alternatives were: (1) The proponent's Recommended Plan; and (2) Smaller Reservoir Plan. The Recommended Plan will provide to north Sanpete County an average annual supply of 4,920 acre-feet of supplemental irrigation water for 15,420 acres of presently irrigated farmland and 480 acre-feet of water for municipal use. The service area encompasses about 49,000 acres. The project plan will include construction of Narrows Dam and Reservoir on Gooseberry Creek, pipelines to deliver the water to existing water distribution systems, rehabilitation of the existing Narrows Tunnel, and relocation of 2.9 miles of State Road (SR) 264. The project will also provide recreation opportunities and fish and wildlife improvements. In addition to the two action plans and the No Action Plan, the FEIS also evaluates in less detail the impacts of several non-viable alternatives.

The principal environmental consequences that would result from the

two action plans include: Increased crop production, economic stability and growth, expanded fish and wildlife resources and recreational opportunities.

Dated: January 24, 1995.

Rick L. Gold,

Deputy Regional Director.

National Park Service

Notice of Intent To Repatriate a Cultural Item in the Possession of the Museum of New Mexico, Santa Fe, New Mexico

AGENCY: National Park Service, Interior.
ACTION: Notice.

Notice is hereby given under provisions of the Native American Graves Protection and Repatriation Act of the intent to repatriate cultural items in the possession of the Museum of Indian Arts and Culture/Laboratory of Anthropology, a unit of the Museum of New Mexico, Santa Fe, New Mexico, that meets the definition of "sacred object" under Section 2 of the Act.

The item is a prayer stick used as a part of the Navajo Enemyway ceremony. The object consists of nine parts: two eagle feathers, a cedar branch, a piece of red cloth, a can of animal fat, deer hooves, and three leather pouches. The object was a gift to the Museum of new Mexico by its first director, Dr. Edgar Lee Hewett. These objects were part of a medicine bag containing approximately sixty-nine pieces, purchased by Hewett at a trading post east of the Chuska Mountains on the Navajo Reservation prior to 1935.

The Navajo Nation after consultation with traditional religious leaders, requested that the prayer stick and the associated items be repatriated. The Museum's records indicate the objects under consideration for repatriation are Navajo in origin and were, most likely used by Navajo Medicine Men during the first two decades of the 20th century.

Based on the above mentioned information, officials of the Museum of Indian Arts and Culture, a unit of the Museum of New Mexico have determined, pursuant to 25 U.S.C. 3001 (3)(C), that these items are specific ceremonial objects needed by traditional Navajo religious leaders for the practice of their religion by its present day adherents. Officials of the Museum of Indian Arts and Culture, a unit of the Museum of New Mexico have further determined, pursuant to 25 U.S.C. 3001

(2), that there is a relationship of shared group identity which can be reasonably traced between these items and the Navajo Nation.

The catalog numbered objects, 23075/12a-g and 23072/12a-b, are officially part of the collection now identified as the School of American Research Collection in the Museum of New Mexico, a loan agreement resulting from fifty years of the two institutions operating as one entity under a single Director. The School, now separate from the Museum of New Mexico, through written correspondence dated January 6, 1995 has agreed to repatriate the prayer stick and associated items.

Authorities of the United States Fish and Wildlife Service have been contacted regarding applicability of Federal endangered species statutes to this transfer and have concurred in the conclusion that the object is not covered due to its age.

This notice has been sent to officials of the Navajo Nation. Representatives of any other Indian tribe which believes itself to be culturally affiliated with these cultural items should contact Dr. Bruce Bernstein, Chief Curator, Museum of Indian Arts and Culture, Museum of New Mexico, P.O. Box 2087, Santa Fe, NM 87504, telephone: (505) 827-6344, before March 6, 1995. Repatriation of these sacred objects to the Navajo Nation may begin after that date if no additional claimants come forward.

Dated: January 26, 1995.
